Cartridge Recycling Policy

COS are fully committed to managing our environmental responsibilities and are fully compliant with UK and EU regulations. We aim to re-use or recycle products and materials wherever possible.

COS encourage our customers to recycle inkjet and laser toner cartridges. We will happily supply collection receptacles to our clients to ensure the efficient collection and return of these items for re-manufacture and re-use.

- COS Group will maintain an appropriate Waste Carriers License
- COS Group will maintain any required Waste Management Licenses
- COS Group will engage the services of an accredited and audited recycling service provider
- COS Group will provide clients with suitable collection containers
- COS Group will collect full containers and replace them with empty containers
- COS Group will store used cartridges in an effective manner minimising the potential for pollution
- COS Group will arrange for large consolidated collections of toners by its recycler
- The current chosen recycler is K2 (please see addendum attached)
- COS Group will provide copies of this policy and details of the recycling process on demand.
